# National Institute of Technology Calicut

Department of Computer Science and Engineering
CS4042D WEB PROGRAMMING
Classroom Assignment- Javascript

Write the HTML and Javascript code for implementing the below shown webpage with the described functionality. On the click of the *Calculate* button, call a Javascript function named *callCalc()*. The function checks whether numbers are provided by the user on the textboxes for *Operand 1* and *Operand 2*, and displays the result based on the choice of operation selected on radio buttons with the help of window alert. Any assumptions made, should be clearly mentioned in your submission. Submit you code in a single zip file with naming format <Rollno>_<Firstname>.zip
